

## Line Maintenance - Emergency

The function of this department is to distribute an adequate supply of quality water to meet the ever-increasing demands of our residential, commercial, and industrial customers. This division operates and maintains the water distribution system by providing maintenance and repair to existing lines, mains, meters and fire hydrants. It is responsible for replacing lines as needed, installing water service connections and responding to emergency customer service calls 24 hours a day, 7 days a week. It provides for the improvement and expansion within the distribution system through new construction.
